

PRODUCT OVERVIEW

eDocCore - The Intelligent Data Entry Solution

Automated Image Digitization including Auto Data Entry, Auto Import, Quality Control, and Delivery

eDocCore intelligently digitizes images that cannot be transcribed by either traditional manual processes or by OCR technology.

This innovative solution captures information from digital images that are of very poor quality by taking advantage of the salient features of the record and the relationships among the records. eDocCore renders the data intelligently without requiring manual data entry.

Business Solutions

- Medical Forms Processing
- Loan Document Processing
- AP Invoice Processing
- Personnel File Processing
- Legal Case File Processing
- General Records Management
- Military Records Processing

- Intelligently Digitize Images
- Facilitates OCR Technologies
